Let's recap ! Parmi les 100 verbes que venez d'apprendre, 11 ont trois formes identiques : **PUT, LET, SET, READ, COST, CUT, HIT, SPREAD, HURT, SHUT, BET**

Parmi les 100 verbes que venez d'apprendre, 2 verbes se forment comme « lay » : **SAY, PAY**

## Des réponses à vos questions...

### ❑ Pourquoi apprendre les verbes irréguliers ?

=> Ce sont les verbes les plus utilisés en anglais, et il est bien sûr très difficile de communiquer en langue étrangère sans connaître les mots les plus courants,  
=> les 3 formes mémorisées (infinitif, prétérit et participe passé) permettent de former tous les « temps » de l'anglais.

### ❑ Pourquoi un cahier en plus des exercices en ligne ?

Le mode d'apprentissage hybride facilite la mémorisation. Les activités concrètes sur papier et virtuelles en ligne sont complémentaires :

=> **Le cahier** : le fait d'écrire avec un stylo favorise la mémorisation, car cela permet de mobiliser ce qu'on appelle la mémoire kinesthésique (ou mémoire du geste). Le cahier permet aussi la personnalisation (dessins supplémentaires, ajout de couleurs...). Il permet enfin de garder une trace concrète et rapidement accessible du travail effectué et de vos progrès.

=> **Les activités en ligne** ont l'avantage de pouvoir être répétées à l'infini et la correction est instantanée. Elles permettent aussi de mémoriser la prononciation et de faire appel à votre mémoire auditive.

### ❑ Comment les 100 verbes ont-ils été choisis ?

La liste est basée sur la *New General Service List – Spoken*, élaborée par les Dr Browne et Dr Culligan, qui ont classé les mots selon leur fréquence d'utilisation à l'oral. (plus d'informations sur leur site [newgeneralservicelist.org](http://newgeneralservicelist.org) )

### ❑ Il suffit de les lire plusieurs fois, non ?

Les recherches en sciences cognitives ont prouvé que, contrairement à une idée répandue, les révisions par simple lecture ne permettraient pas de mémoriser à long terme.

La révision doit être **active**, il faut se tester, se poser des questions. Ainsi, le cerveau va chercher dans sa mémoire pour formuler une hypothèse, et c'est ce travail de recherche qui favorise la mémorisation, avec une vérification rapide de la réponse. C'est l'intérêt des exercices autocorrectifs sur le cahier et des exercices interactifs en ligne.

### ❑ Dans quel ordre faire ces activités ?

=> Le cahier est organisé en 10 niveaux, chaque niveau comprend 10 verbes. Le niveau 1 inclut les 10 verbes les plus utilisés, le niveau 2 les 10 suivants, etc. Donc faites les niveaux dans l'ordre du cahier.

=> Pour chaque niveau, faites les différentes activités dans l'ordre qui vous convient le mieux, mais il vaut mieux regarder l'animation d'abord pour découvrir la prononciation en même temps que l'orthographe et le sens.

❑ **Combien de temps cela va-t-il me prendre ? Comment m'organiser ?** Mon conseil : ne faites pas tous les exercices d'un niveau d'un seul coup. Il vaut mieux y passer peu de temps à chaque fois (15 minutes maximum) et étaler la mémorisation d'un niveau sur plusieurs jours voire plusieurs semaines. C'est en espaçant les révisions **actives** que ces verbes entreront dans votre mémoire à long terme. Et surtout, faites les exercices sans regarder la correction dans un premier temps :)
